Annual Fee Treatment- First Year post LOK enactment

For the first 12 months post LOK enactment (24th December 2024 to 24th December 2025), an approved applicant is formally granted a licence only after payment of the first invoice(s), which covers the initial six-month period (rather than the complete annual fee).

- For B2C licences, this includes amounts due to both the Curaçao Gaming Authority (CGA) and the Government of Curaçao (National Treasury).
- For B2B licences, this invoice includes only the amounts due to the CGA.

Before the expiry of the initial six-month period, licence holders whose licence is eligible for continuation/extension for a further 6 months, will receive a second invoice covering the subsequent six-month period, beginning immediately after the first. Please note that these six-month billing periods may cross calendar years during the first year of licensing.

After the first year, and once a full licence has been granted, the licence holder will transition to annual invoicing.

Please note that the issuance of an invoice alone does not constitute confirmation of a licence continuation or extension. Such confirmation is only valid when expressly communicated in writing by the CGA.

If a license is revoked, whether or not at the request of the license holder, the full fee for the period to which the payment relates remains payable. If, for example, the fee applies to a provisional license valid for six months, the fee for that six-month period remains payable regardless of when the license is revoked. If it applies to a one-year period, the full amount for that year remains payable regardless of when the license is revoked during that period.

Other Administrative Fees
